# Educational Music Books of RARE VALUE

## GEO. L. SPAULDING'S NOTE-SPELLER

Trade-mark Registered MCMXI.

This is the biggest little book ever published, it was invented to overcome the greatest drawback pupils have to contend with, *i.e.*, that of identifying the notes.

If you are learning to sing or play the piano, organ, violin, cornet, clarinet, flute, trombone or any other musical instrument, the "NOTE-SPELLER" will teach you to read the notes accurately in a small fraction of the time heretofore consumed, without in the least interfering with your present routine of practice.

In one month, students of the "NOTE-SPELLER" will have leaped a year ahead in their studies.

The foundation for the study of music is between its covers.

Read what some of the most prominent pedagogs have to say regarding it:

CHARLES DENNIE—"It ought to be a very popular book."  
GUSTAV L. BECKER—"It is bound to be successful."  
ARTHUR FOOTE—"I should say it would answer its purpose well."  
HENRY L. GIDEON—"The booklet will come into wide popularity."  
F. E. FARRAR—"I shall use it myself."  
ERNEST R. KROEGER—"Will become a standard."  
LOUIS STILLMAN—"It is thoroughly practical."  
RAFAEL SAUMELL—"I congratulate Mr. Spaulding."

Katharine Garratt Skinner

Those contemplating the study of music never had such a splendid opportunity to delve into the mysteries of the keyboard with so little effort.

Beginning with the staff the composer systematically takes the pupil in a whimsical manner through the entire system of notation. That the text may be the more quickly understood, the pages are redolent with picture cuts and half tones.

Nothing of a like nature on the market. Appropriate for kindergartens, class work or private tuition.

## A Practical Piano Course for Beginners

By EDUARD HOLST

A systematic course of instruction of a diversifying type. It starts the pupils at the very beginning and leads them, step by step, with proper graduality, to the easy third grade.

Although a teacher of long experience, Mr. Holst realized when he began his task of compiling this book that his was no easy one, considering the many excellent volumes on the same subject already published. So after accumulating all the possible material he could find, he carefully sifted the useful from the useless, and being benefited by the mistakes of his predecessors, succeeded finally in finishing the most concise work, from the beginner's point of view, on the market.

A recreative melody at every opportunity rather than a tedious exercise has been inserted, making the interest doubly strong.

A thoroughly reliable work, easily comprehended.

Don't decide upon your course of instruction until you have seen this one.

The flattering testimonials received from pedagogic authorities prove that these books are destined to become thumb marked volumes in every ambitious student's library.

## How to Strike the Keys of the Piano

By J. ALFRED JOHNSTONE

In order to become a proficient pianist the principles and practice of technic must be thoroughly mastered, but in order to accomplish this the finger muscles have to be properly developed, that they may be made to STRIKE the keys according to the will of the performer.

This work contains no note exercises, being practically an essay on the fingers, dealing directly upon all points needed for the acquirement of correct finger and wrist technic.

What the dictionary is to your library, this work is to your music room.

## Phrasing in Piano Playing

An Elementary Guide  
with Examples

By J. ALFRED JOHNSTONE

The object of this work is to tell in the clearest and simplest way how piano music should be phrased, particularly that branch which treats of the articulation of music from a constructive and punctuating point of view. The volume also contains an outline of some common forms of music, treats of musical sentences and their right phrasing, how to distinguish the various uses of the slur, etc.

## Violin Technic Simplified

Based upon mental control and change of positions

A new system for Perfect Intonation

By LEO C. BRYANT, Pupil of Goby Eberhardt and Merrick B. Hilderbrandt

In this work, the author, giving the public the benefit of his many years' experience as a practical teacher and student, proves conclusively that the quickest method of acquiring a perfect violin technic, is, not in exhausting one's entire strength on tedious etudes, but rather by concentrating the mind on the muscular development of the individual fingers, as each finger has a special task to perform, it must be trained accordingly, in order to do its part thoroughly.

That the description of the gymnastic exercises may be easily comprehended, illustrations taken from life-photographs are interspersed throughout.

## Violin Scales

And Everything Pertaining to the Practice of them, as used at the leading European Conservatories and by the great modern Masters.

Compiled, Arranged and Fingered by Christian Kriens

This remarkably practical book was the direct result of its author's discovery of what he rightly describes as "the crying need for a book that contains all the scales and everything pertaining to them." Prior to the appearance of Kriens "Violin Scales," it was necessary for the teacher to use several books at once or have the pupil write out the scales. Hence the reason for this valuable book. Its inspiration lies in the truism "Scale practice makes the master." "VIOLIN SCALES" contains a system of fingering that is the result of the author's careful comparison of all existing fingering methods, and he has chosen only that which, in his expert opinion, seemed the most practical uniform and clear in each case, as well as of most benefit to the student.
